INTRODUCTION

The Orange County Board of Supervisors recognizes the need to identify and advocate for its legislative and funding priorities in Sacramento and Washington, D.C. To be effective in this mission, the Board is pleased to present its 2023-2024 Legislative Platform.

This document includes the Board’s top state and federal legislative priorities and new bill requests for which legislators are sought to carry proposed legislation on the County’s behalf. It also provides general direction to the County Executive Office and County departments, legislative advocates, state and federal delegation members and the public on positions of support or opposition to key policy initiatives which impact the way the County does business.

As the Legislative Platform is approved prior to the beginning of each two-year state and federal legislative session, it is not always possible to anticipate additional legislative, regulatory and/or budgetary issues that may arise at a later date. Thus, the Board may review and modify this document during the two-year legislative session as necessary.

BACKGROUND

Incorporated in 1889, the County of Orange spans nearly 800 square miles and includes 42 miles of coastline. There are 34 cities in the County and several unincorporated areas. Of the 58 counties in California, Orange County ranks third in population with more than 3 million people. It is also the fifth-most populous county in the United States.

A five-member Board of Supervisors, each elected to four-year terms in district nonpartisan elections, serves as the legislative body of the County, which functions under a Charter adopted in 2002. The Board governs the following:

All Assessment Districts, All Community Facilities Districts, All Reassessment Districts, Housing and Community Development Commission, Housing Successor Agency to the Orange County Development Agency, In-Home Supportive Services Public Authority, Industrial Development Authority For Orange County, Local Redevelopment Authority, Former Marine Corp Air Station (MCAS) El Toro, Orange County Financing Authority, Orange County Flood Control District, Orange County Housing Authority, Orange County Housing Authority Acting As the Housing Successor Agency, Orange County Public Financing Authority, Orange County Special Financing Authority, South Orange County Public Financing Authority, and the Successor Agency to the Orange County Development Agency.

The County is a regional service provider committed to maximizing resources and improving the quality of life for its residents. The County's primary goal is the effective and efficient delivery of services of its core business areas: Aviation, Environmental Protection, Public Assistance, Public Health, Public Safety, Regional Planning and Social Services. There are 23 agencies and departments including:

Assessor*, Auditor-Controller*, Board of Supervisors*, Child Support Services, Clerk of the Board, Clerk-Recorder*, County Counsel, County Executive Office, Ethics Commission, District Attorney – Public Administrator*, Health Care Agency – Public Guardian, Office of Independent Review, Internal Audit, John Wayne Airport, OC Community Resources, OC Public Works, OC Waste & Recycling, Probation, Public Defender, Registrar of Voters, Sheriff-Coroner*, Social Services Agency and Treasurer-Tax Collector*. (* indicates elected official departments)

The County Executive Officer is appointed by the Board and directs the County's day-to-day government operations. The Chief Financial Officer is responsible for presenting the Board with a Recommended Budget for consideration of adoption as the Final (Adopted) Budget, which serves as the foundation of the County's financial planning and control. The County employs approximately 18,500 permanent full-time employees and the Total Budget for FY 2021-22 is \$8.8 Billion.

GUIDING PRINCIPLES

The Board's four guiding principles are reflected throughout the 2023-2024 Legislative Platform:

Local Government Funding/Cost Recovery

The County supports efforts to require the state or federal government to fully reimburse the County for all costs related to mandated programs, particularly costs incurred from COVID-19. The County will oppose efforts to raise local taxes to pay for new state or federal programs, efforts to redirect existing revenue streams away from mandated programs administered by the County, or expansion of service provisions without commensurate funding.

Operational Efficiency

The County supports proposals that encourage utilizing technology and innovation to streamline County Services. Furthermore, changes to state or federal law must not negatively impact the County's operational efficiency, and the County strongly supports efforts to eliminate unnecessary, redundant, or overlapping requirements or regulations for program eligibility, funding maintenance of efforts, monitoring, permitting or reporting.

Local Control

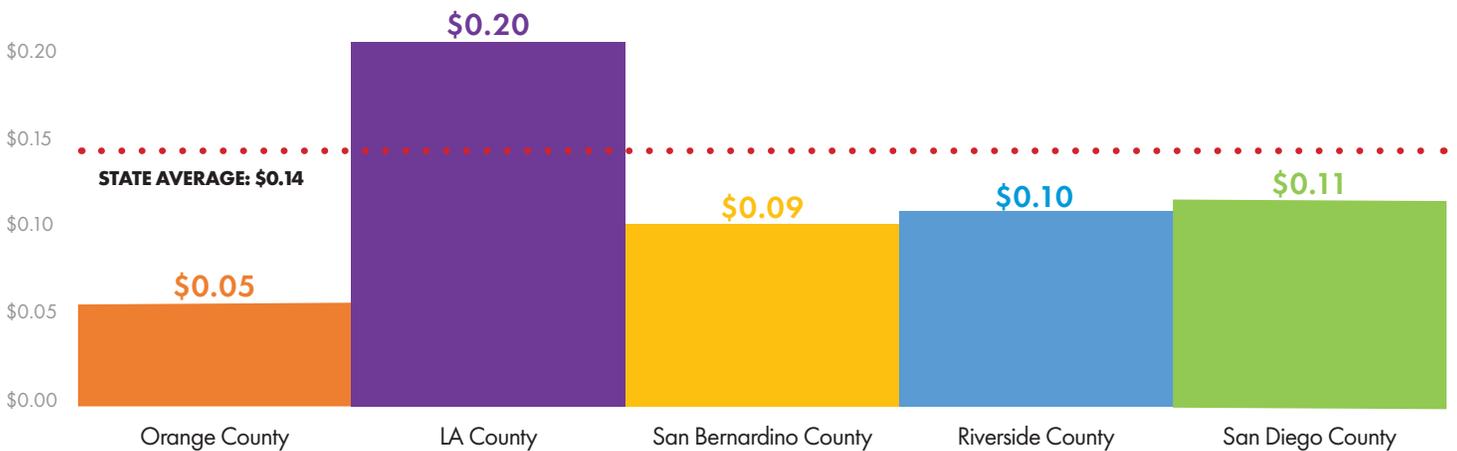

The County supports efforts that maintain local discretionary control over its governance issues and delivery of services. This includes having flexibility to administer federal, state or local funding and programs, as well as maintaining decision-making authority over local land use.

Funding Equity

The County supports equitable, dependable and predictable revenue streams to local governments that address equity among counties based on specified metrics.

PROPERTY TAX ALLOCATION

In 1978, Assembly Bill 8 set the formula for each California County’s property tax allocation based on population. Since then, Orange County’s population has nearly doubled, but our property tax allocation remains unchanged. Property tax revenue is Orange County’s largest source of income for funding mandated and discretionary programs for its residents. As of 2021, Orange County receives five cents of every property tax dollar, the lowest amount of all its peers.

KEY INITIATIVES

Orange County continues to be at the forefront of delivering public services through the development of innovative and collaborative programs. These key initiatives are identified and established by aligning strategic priorities as well as emerging issues. These initiatives include:

- **OC CARES**
- **Veterans Services**
- **Master Plan on Aging**
- **County Community Service Centers**

OC CARES

BEHAVIORAL HEALTH

HEALTHCARE

COMMUNITY CORRECTIONS

OC HOUSING

BENEFITS AND SUPPORT SERVICES

The OC CARES system links the various systems of care in the County of Orange to provide full care coordination and services for justice-involved individuals to successfully reenter society and work towards self-sufficiency.

These systems of care include behavioral health, healthcare, community corrections, housing, and benefits and support services. This innovative approach was developed through stakeholder involvement and efforts led by the Orange County Criminal Justice Coordinating Council (OCCJCC).

2025 VISION

To ensure a thorough examination of Orange County's criminal justice system, OC CARES is implementing the 2025 Vision conceptualized by the five pillars below. Each pillar is made up of overarching goals assigned to specific departments to provide inmates and at-risk individuals with the services they need within the community corrections system.

Prevention: Public informational campaigns and interventions that help divert people from involvement in the criminal justice system

Courts: Coordination between County agencies and the courts to make data driven decisions when planning expansions of services and diversion

In-Custody: Mental health and substance use programs, linkages to post custody services, as well as trainings and education to prepare people for reentry

Reentry: A comprehensive system that ensures continuity in treatment for mental health and substance use disorders including resources and assistance to promote a positive transition back into the community

Juvenile and Transitional Age Youth (TAY): Expansion of mental health services, substance use treatments, and stable housing options for juveniles and TAY who are high risk of being justice-involved

OC NAVIGATOR

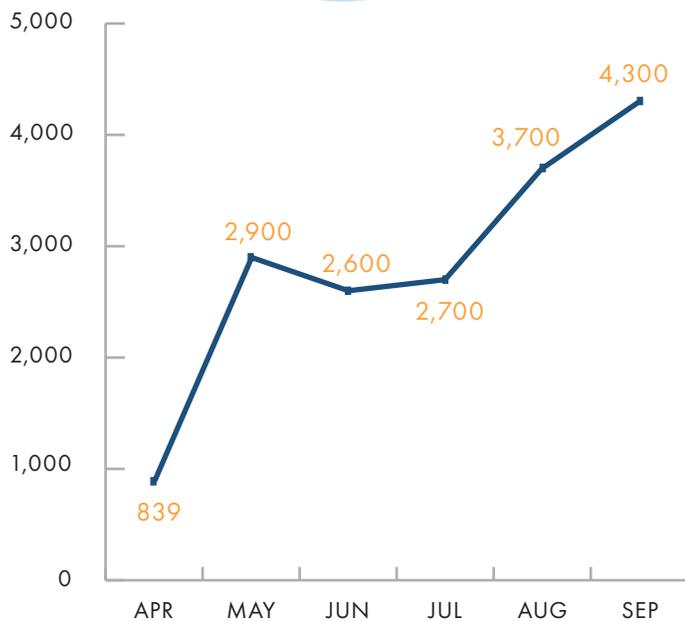

OC Navigator is an online resource navigation tool where community members and local agencies can search for local mental wellness and social services. The OC Navigator was developed collaboratively with Orange County Health Care Agency's (HCA) Mental Health and Recovery Services (MHRS) Innovation Department, Chorus Innovation staff and community stakeholders, and is funded by the Mental Health Services Act.

Since the launch of the OC Navigator webpage in April 2022 there have been more than 16,000 new and returning webpage visitors and 353,000 page views of self-guided wellness tips and tools, and local mental health and other resources.

CRISIS INTERVENTION TRAINING

Orange County has worked to establish a robust multi-response behavioral health-based law enforcement program to address response calls involving individuals with mental health disorders. Crisis Intervention Training (CIT) provides behavioral health trainings for first responders in Orange County including law enforcement officers, public safety dispatchers, campus safety officers, emergency medical services personnel, firefighters, paramedics and many more working in the community. CIT teaches first responders how to recognize signs and symptoms of mental illness as well as de-escalation techniques during a mental health crisis.

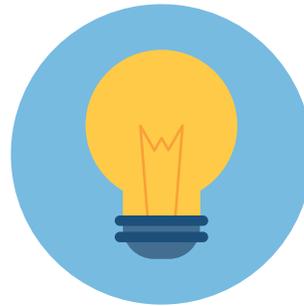

The County is currently expanding programming on CIT training for dispatchers to incorporate 911 Diversion. This aligns with California's rollout of the 988 Suicide and Crisis Lifeline.

Be Well

ORANGE COUNTY

The Orange County Board of Supervisors has prioritized transforming Orange County’s approach to behavioral health through the Be Well Orange County initiative, a coalition between the County and behavioral health stakeholders in the private and public sectors, including CalOptima, major hospitals, non-profits, and academic and faith-based organizations.

Be Well Orange County educates the community and provides easy access to services through the establishment of behavioral health campuses open to any county resident, regardless of payor. These campuses are also available to law enforcement as an alternative to arrest, to divert those experiencing a behavioral health crisis toward treatment.

The first behavioral health campus opened in the city of Orange in April 2021 through a public-private partnership. The campus provides a triage unit, psychiatric intake and referral, substance use disorder intake and referral, withdrawal management, transitional residential services, residential treatment services and an integrated support center that will provide linkages with complimentary community and social support services. The campus also provides the first youth crisis stabilization unit (CSU) in the County.

A site in Irvine has been identified as the second location for the Be Well South campus to be established through a public-private partnership. The Board of Supervisors directed that one building be designated as the Orange County Behavioral Health Families and Children’s Campus, which will deliver coordinated mental health services, support and resources to children and their family members.

HEALTHCARE

HEALTHCARE

Orange County has extended efforts to bolster the Healthcare System of Care and in particular for the justice-involved population. This includes the addition of a Diabetic Educator nurse that provides education, care management and linkage to post-custody services that ensures diabetic inmates stay on track with appropriate treatments to prevent the progression of the disease. Additionally, the County is continuing to expand chronic care management by nursing staff to treat other diseases prevalent in this population, such as asthma, hepatitis C, HIV and cardiovascular disease. In 2023 the Public Health team will be supporting the implementation of the new Street Medicine Program which will service the homeless population.

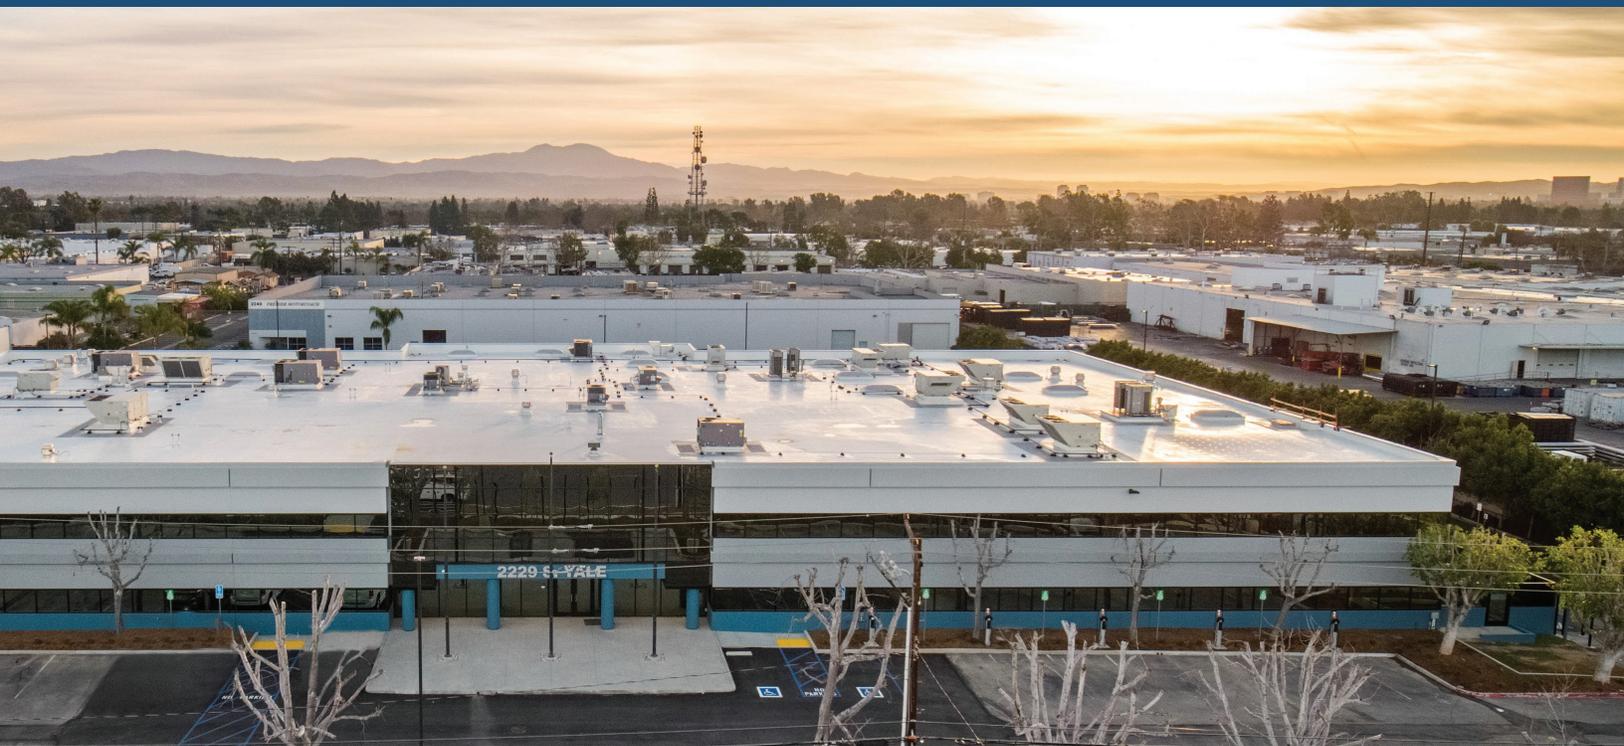

COMMUNITY CORRECTIONS

Orange County has been on the forefront of developing a comprehensive, multi-agency juvenile justice plan to develop a continuum of responses for the prevention, intervention, supervision, treatment and incarceration of juvenile offenders.

Opened in November 2022, the Multipurpose Rehabilitation Center (MRC) addresses the needs of the juvenile and transitional age youth (TAY) within the community corrections system of care. The MRC expands the programs and treatments provided by various County stakeholders and community partners and offers youth the opportunity to learn a variety of educational, vocational and life skills. The facility consists of several classrooms for programming space, an auto shop, a gymnasium, a fitness center, a multipurpose room that can also be used for youth to visit with their families, an interview room, a childcare room, and a food preparation station. The MRC combines the importance of family and community to engage in youth's rehabilitation and prepare them for successful reentry into the community.

HOUSING

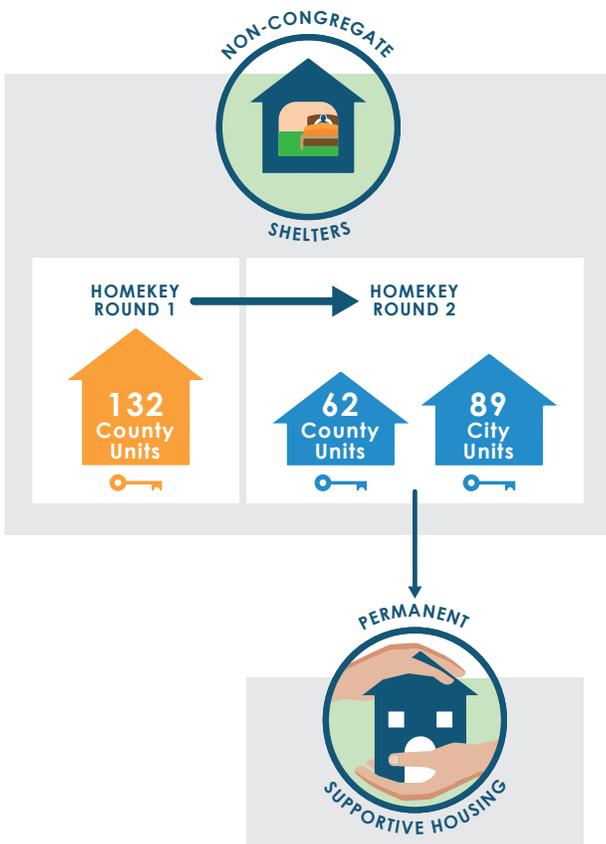

The County has invested in the development of regional navigation centers that provide year-round emergency shelter to individuals experiencing

capacity through the Homekey Program. The Homekey Program prioritizes the placement of vulnerable individuals at high-risk for COVID-19 complications due to being elderly and/or having underlying health conditions who are experiencing homelessness.

homelessness and supportive services to assist individuals in accessing available housing resources. The County operates Bridges at Kraemer Place, a 200-bed program located in Anaheim that serves the North Service Planning Area, and the Yale Navigation Center, a 425-bed program located in Santa Ana that serves the Central Service Planning Area. Additionally, the County provides funding to non-profit operated emergency shelter programs to serve individuals, families, and transitional aged youth experiencing homelessness throughout Orange County.

In partnership with the state and local cities, the County has been actively expanding interim housing and permanent supportive housing

- The County was awarded round one of state funding to establish 132 units of non-congregate shelter.
- The County was awarded round two of state funding for a project that created 62 County units of non-congregate shelter. The County also partnered with the city of Anaheim to create an additional 89 units of non-congregate shelter.
- All units will be converted to permanent supportive housing at a later date.

The County has had success in pairing housing choice vouchers and/or special purpose vouchers with housing navigation and support services to reduce barriers to housing for individuals and families experiencing homelessness. This approach has also allowed the County to develop landlord engagement strategies and increase the network of housing resources.

The County is continuing its 2018 Housing Funding Strategy to develop 2,700 units of supportive housing. Since this goal was created, 1,643 units have been established, and these are in different stages of development. Furthermore, the County has committed to achieving an additional 2,700 units of general affordable housing. Thus far, 2,144 units have been completed.

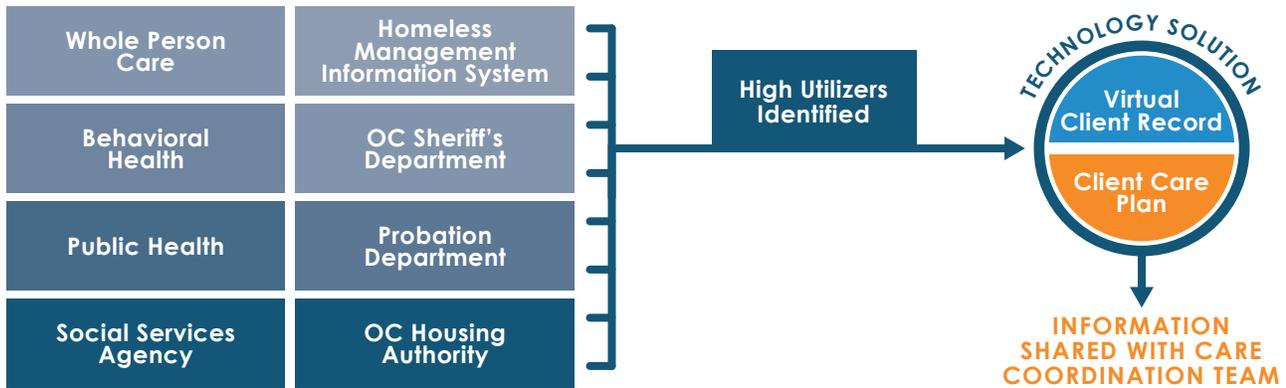

GOALS

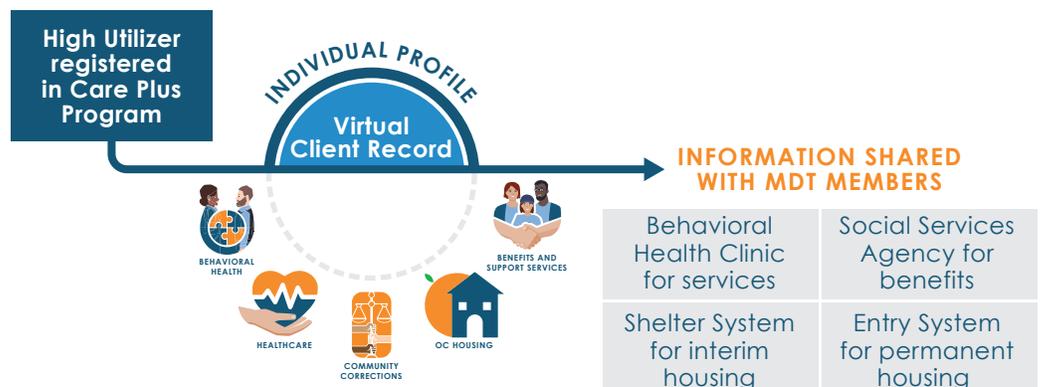

**BENEFITS AND
SUPPORT SERVICES**

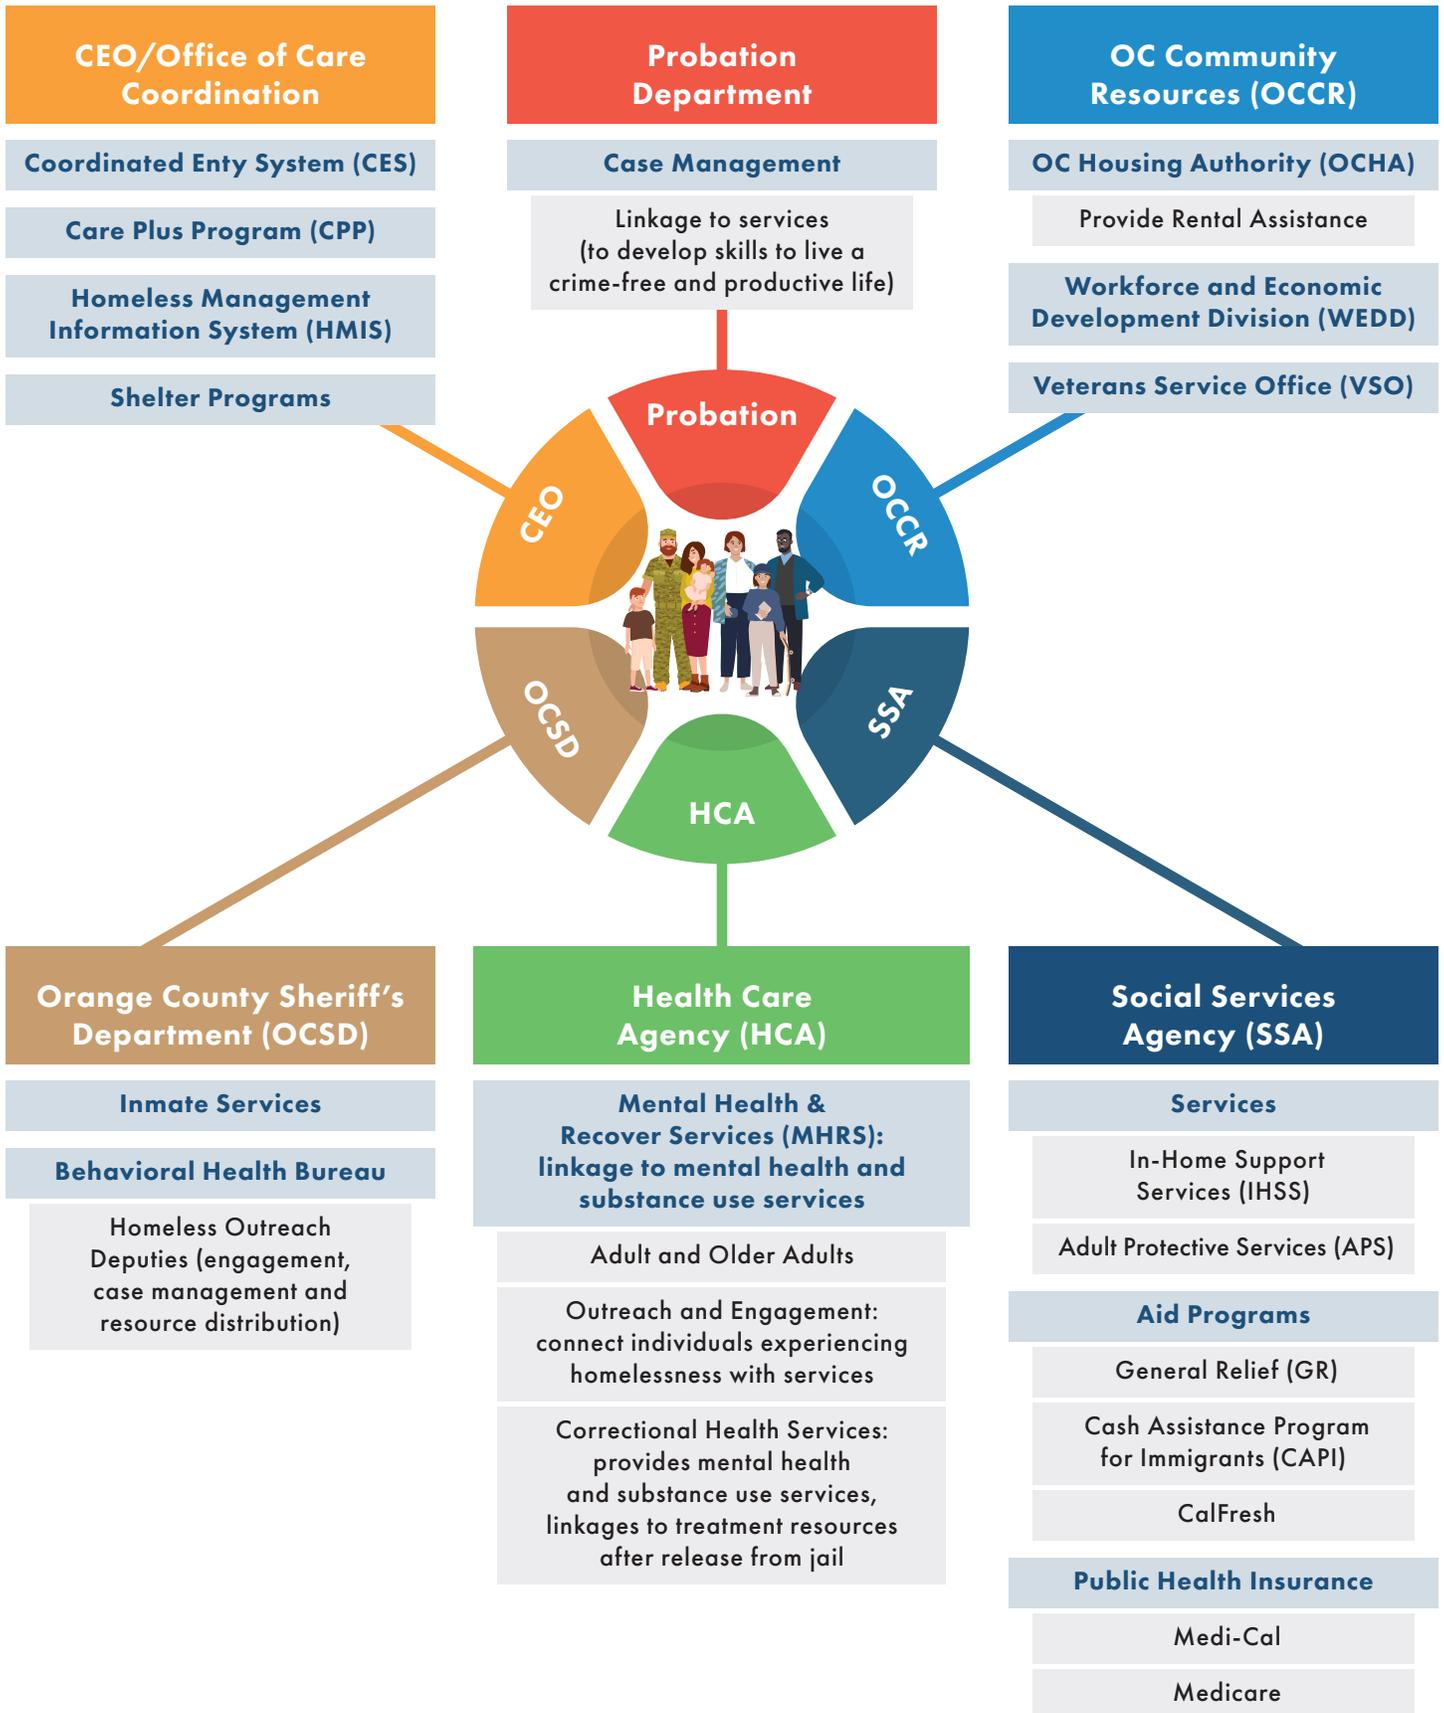

BENEFITS AND SUPPORT SERVICES

The System of Care Data Integration System (SOCDIS) project integrated nine databases to create one Virtual Client Record with a client's demographics, program history and service utilization. Interdepartmental data and information sharing is facilitated by a Multi-Disciplinary Team (MDT) that meets twice a month to coordinate care for high utilizers accessing County services/programs. High utilizers are defined as those found in four or more databases across the County. Additional criteria are considered for MDT and care coordination for targeted segments of the population with high barriers.

The innovative Care Plus Program (CPP) offers a comprehensive approach to service delivery for Orange County's most vulnerable clients. Regardless of an individual's point of entry into the criminal justice system, the CPP will connect them to the appropriate services and resources across Behavioral Health, Corrections, Healthcare, Housing and Homelessness, and Benefits and Supportive Services.

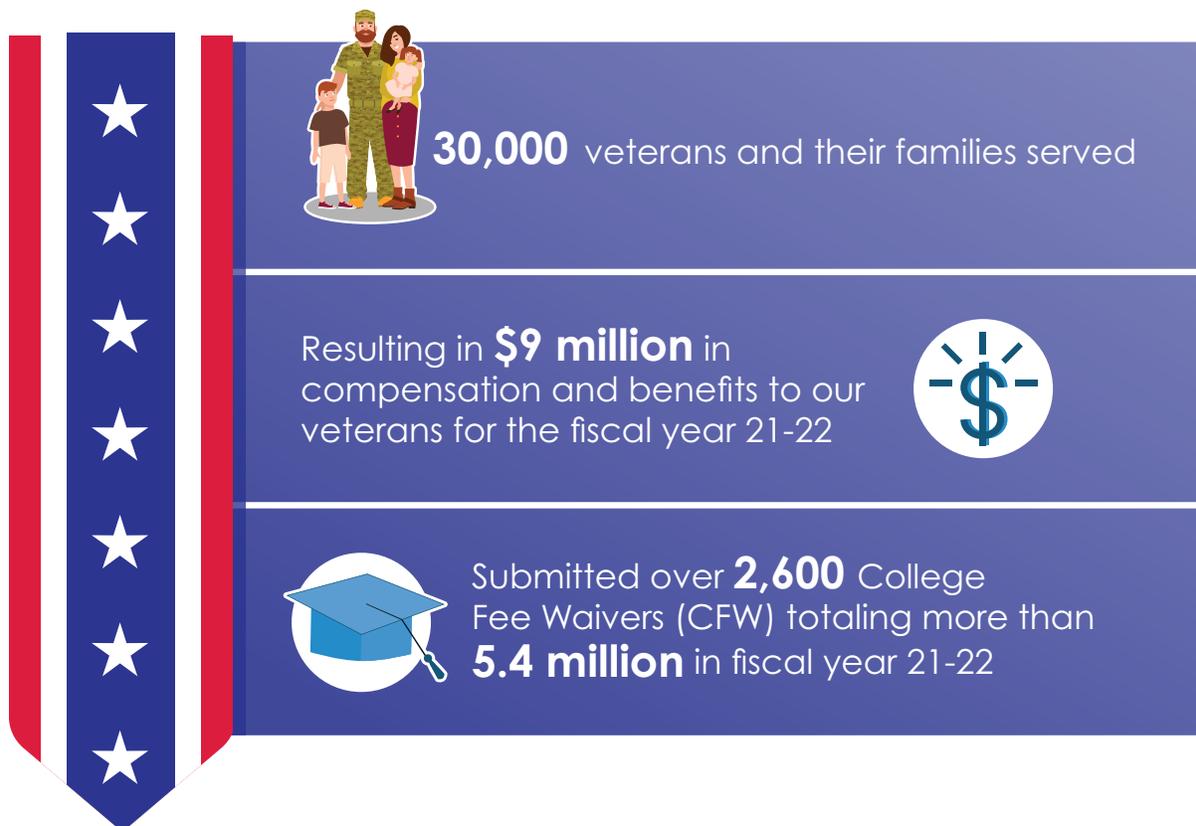

VETERANS SERVICES

The Orange County Board of Supervisors is committed to providing resources and assistance to our veterans of the United States Armed Forces and their dependents through the Orange County Veterans Service Office (VSO). The Board has approved an overall increase to the VSO budget for the past three years, allowing it to continue working collaboratively with nationally chartered veterans organizations, the Department of Veterans Affairs and others to assure our brave service men and women receive the entitlements they have earned for their military service.

The VSO has developed a platform that allows veterans and their dependents to self-schedule, cancel and modify appointments with a Veterans Claims Representative to discuss their benefits. Additionally, the VSO implemented an online application to simplify and expedite the process for submitting and processing College Fee Waivers (CFW). This new process allows eligible dependents the opportunity to fully complete their CFW application virtually.

ORANGE COUNTY VETERANS CEMETERY

Home to former Army, Navy, and Marine bases and an estimated 105,000 veterans, Orange County is California's largest county without a veterans cemetery. Orange County veterans have advocated for almost a decade to build a State Veterans Cemetery in Orange County.

On July 27, 2021, the Orange County Board of Supervisors unanimously approved allocating \$20 million exclusively for site development of a veterans cemetery at Gypsum Canyon in Anaheim Hills and adopted a resolution to move forward with planning and developing a site to honor and respect the men and women who served our country. The Board previously allocated over 200 acres of county-owned land at Gypsum Canyon, which has been deeded to the Orange County Cemetery District (OCCD).

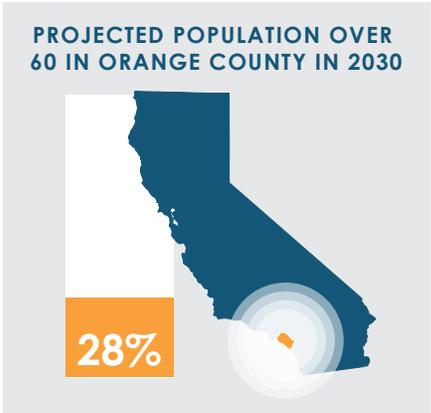

With the support of all 34 Orange County cities, a bipartisan majority of Orange County state and federal delegation members, numerous veterans organization leaders, and more than 140 local elected officials, the Board sponsored Assembly Bill 1595 (Quirk-Silva) allow the California Department of Veterans Affairs (CalVet) to study, acquire, design, develop, and construct a state-operated veterans cemetery in Orange County. AB 1595 became law on September 28, 2022, and the County is coordinating with CalVet on an acquisition study at the Gypsum Canyon site. Upon successful completion of the study, the land at Gypsum Canyon will be transferred to CalVet who will begin the design, development and construction.

MASTER PLAN FOR AGING

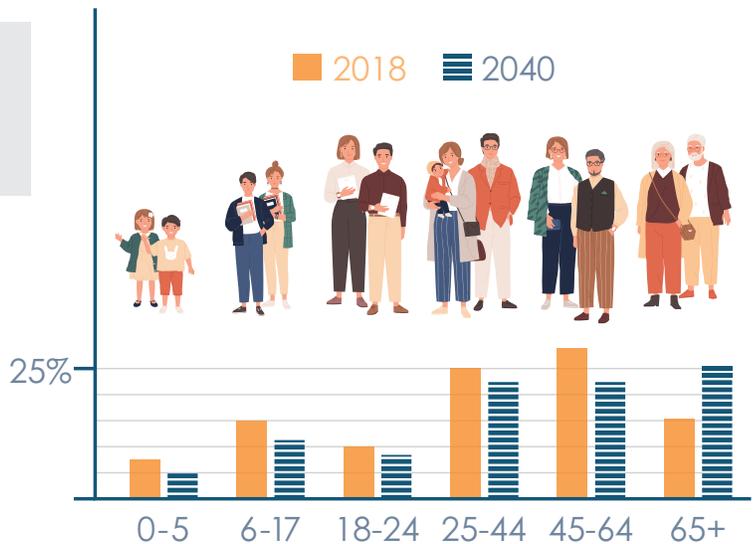

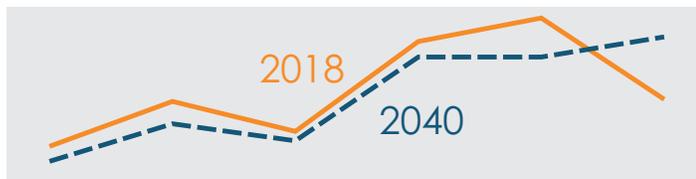

Orange County continues to champion the five overall goals and objectives of California’s Master Plan for Aging. As the state’s over-60 population grows, the County believes it is imperative to implement effective strategies that provide a proactive approach to supporting older adults navigating complex systems of care.

“Aging is changing and it’s changing California. California’s faster than any other age group. By 2030, 10.8 million Californians will be an older adult, making up one-quarter of the state’s population.”

—California Master Plan for Aging

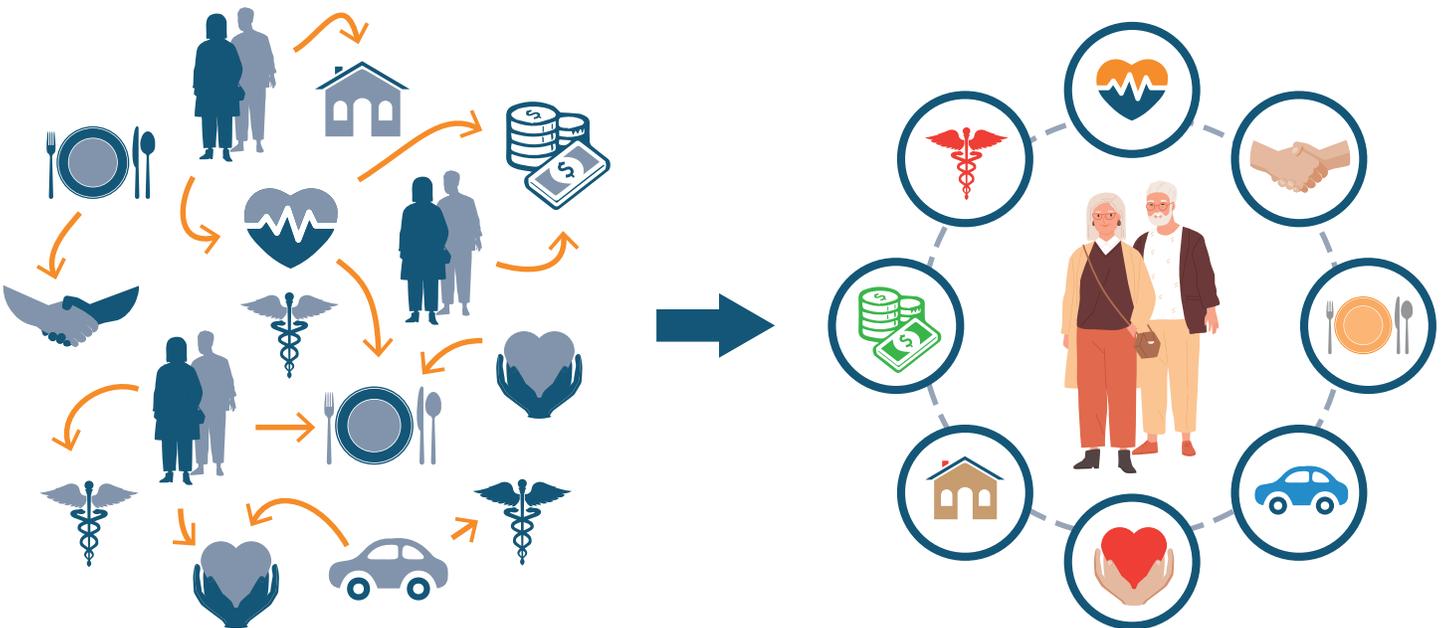

Orange County Population

In 2022 the County sponsored Senate Bill 1342, to allow counties to create a Multi-Disciplinary Team (MDT) among local aging service provider agencies. This holistic approach will address the needs of the older adult population, including developing coordinated case plans for wrap-around services, providing support to caregivers and improving service delivery. SB 1342 was signed into law and beginning in 2023, an Aging Cohort will be added to the County’s System of Care Data Integration (SOCDIS). The MDT will work collaboratively to meet the changing needs and demands of the aging population.

The County will also conduct a comprehensive, county wide health aging assessment initiating in January 2023. The assessment will be used to draft a County plan that identifies and prioritizes the needs and factors affecting the health of our aging population and consider input from caregivers and partner agencies. The assessment will help the County understand the holistic needs of the older demographic by providing an in-depth look at the areas of greatest need, current barriers to accessing services, and identifying gaps. This effort will guide future coordination and collaboration within the County as well as with outside stakeholders.

COUNTY COMMUNITY SERVICE CENTER

The County Community Service Center (CCSC) is a “one-stop shop” providing assistance to Orange County residents on everything from healthcare to housing to services for older adults and children alike. The Orange County Social Services Agency, OC Housing Authority, Office on Aging, OC Health Care Agency, CalOptima and other county and community-based partners serve clients from the CCSC. The mission of the CCSC aligns with the County’s overall vision of integrating services to ensure the health and safety of Orange County residents. The new navigation team serves as the initial point of contact for all clients.

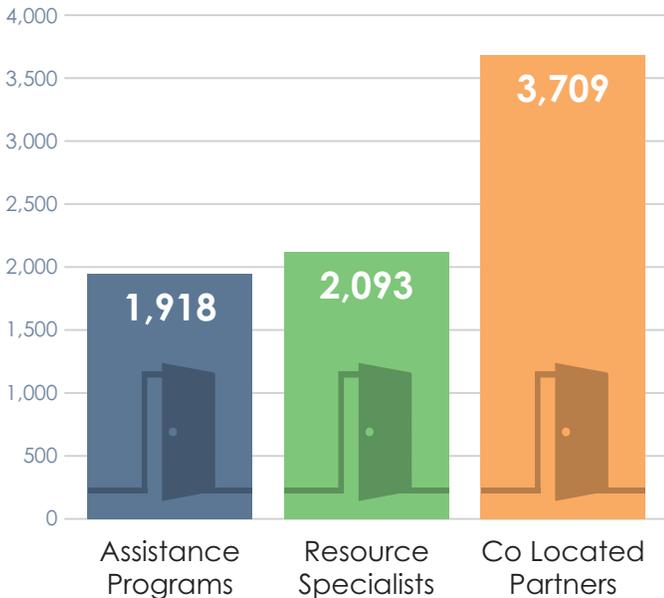

Navigators assess client needs and triage to either Assistance Programs, Community Resource Specialists or one of the Community Based

Partners. Assistance Programs support new applications for CalFresh, General Relief and Medi-Cal. Community Resource Specialists aid clients who require linkages and referrals to programs and services not available at the CCSC. The specialists engage in follow up and follow through for clients as needed.

Services include, but are not limited to:

- Services for Older Adults
- Access to Health Care
- Public Safety Net Services
- Referrals for Mental and Behavioral Health Services
- Affordable Housing
- Property Tax Breaks and Utility Assistance
- Children’s Services
