INTEREST FORM: PART ONE

2. If you represent a specific organization in Orange County, please list your organization & role: *

General EMT

3. Pronouns (for example: she/her, he/him, they/them, xe/hir):

He him

6. What qualities, skills, and experience do you bring that would help the CoC Board to further its work in ending homelessness and furthering effectiveness and collaboration within the work of the Orange County CoC? *

It is one of my strongest held beliefs that homelessness can be fixed in my lifetime, and I want nothing more than to play a role in trying as best I can to make that happen. I have been to several CoC meetings previously and really appreciate the work that the board and its members are trying to achieve, however, it is my belief that there are simpler and more effective ways to cut across the bureaucracy and red tape of addressing this ongoing crisis. I have previous experience, for example, working for a nonprofit that repurposes food and beverage products to give to those in need that include the unhoused or housing at risk population, and in my experience (while large scale living accommodations and drug treatment facilities are ultimately the best options) the simple act of being able to provide a warm meal or those famous online altruists that go around giving free haircuts are the best temporary solutions, and ideas such as these are only a few of the many thoughts I have to recommend as the board continues in its fight to address, treat, and finally end homelessness for those experiencing it

7. While having a conflict of interest does not make you ineligible to serve on the CoC Board, it helps CoC staff for record keeping purposes. Do you have any current conflicts of interest or previous ties to any agency that is a recipient or sub-recipient of CoC funding in the Orange County CoC?

Examples of conflicts might include: Current or former staff, Board member, volunteer or client/participant at a CoC-funded agency, etc.

g. Evaluate Coordinated Entry System (CES) (Objective 5B)

Which of these strategies resonates with you most, and where would you like to contribute to supporting these strategies? *

For me the strategy I most resonate with is C, elevating lived experience leadership. When addressing the issue of how best to end homelessness for such a large population of people that continue to be unhoused, it makes the most sense to me to want people in decision making or pertinent input positions that have the lived experience of knowing what like will or wont work when it comes to solving this problem. I have never been unhoused myself, so what good is it if I can come up with several solutions for solving this crisis if none of them are going to work or resonate with the unhoused population because Ive never been in their position before?

15. Please discuss one (1) significant challenge to addressing homelessness in Orange County. If you could wave a magic wand to address this challenge, what would your solution be? *

The single greatest hurdle to addressing homelessness in my view can be answered in one word: Bureaucracy. It is the red tape of the government that immediately and without warning puts a halt to any laid out plans, approved funding, or ongoing work being done for projects big or small. Were I able to, I would wave that magic wand and release all the suspended plans and work orders that would allow the building or renovation of temporary housing for those without, I would smite with that wand the state legislatures need to even vote on funding the new program of mental health professionals that would replace law enforcement for homeless related calls (in following Oregon's PSR program), and I would use that wand to ensure that any attempts to stop people that just want to see those without housing get the basic necessities of food, water, and a place to sleep would be carried away, never seen or heard from again.
