RE: Request for Support for Community Project Funding – County of Orange Dana Point Harbor Dock and Patrol Building Renovation Project

Dear Senator Padilla, Senator Schiff, and Congressman Levin:

I write to request your support for the County of Orange's Community Project Funding request of \$2 million in support of the Dana Point Harbor Dock and Patrol Building Renovation project. This project would provide significant benefits for the community by enhancing public safety, security, and operational efficiency in one of Southern California's busiest harbors.

Upgrades to these facilities ensure the Harbor Patrol can effectively respond to emergencies and conduct search and rescue missions in the harbor and coastal waters. Facility improvements will include new technology and communications systems to ensure faster response times and improved coordination with other agencies. These will also include new security systems and upgraded emergency response tools to improve situational awareness in the harbor.

Modifying the existing structure addresses aging infrastructure and improves energy efficiency. These enhancements will provide a safe and functional workspace for Harbor Patrol personnel, ensuring they can effectively serve the community. As Dana Point Harbor continues to expand as a hub for tourism, recreation, and commerce, the Harbor Patrol needs additional resources to support the increased maritime activity.

For these reasons, I strongly support the Dana Point Harbor Dock and Patrol Building Renovation project. If you have any questions or need additional information regarding my support for this community funding project, please contact my Deputy Chief of Staff, Alyssa Napuri, at (714) 834-3550 or Alyssa.Napuri@bos5.oc.gov. Thank you in advance for your consideration.

Respectfully Submitted,

Katrina Foley

RE: Request for Support for Community Project Funding – County of Orange

Dear Senator Padilla, Senator Schiff, and Congressman Levin,

I write to request your support for the County of Orange's community project funding request for the Dana Point Harbor Patrol Building Improvement project. This project would provide significant benefits for the community by enhancing public safety, security, and operational efficiency in one of Southern California's busiest harbors.

Upgrades to these facilities will ensure that the Harbor Patrol can effectively respond to emergencies and conduct search and rescue missions in the harbor and coastal waters. Improvements to the facility will include new technology and communications systems to ensure faster response times and improved coordination with other agencies. These will also include new security systems and upgraded emergency response tools to improve situational awareness in the harbor.

Modifying the existing structure will address aging infrastructure and improve energy efficiency. These enhancements will provide a safe and functional workspace for Harbor Patrol personnel, ensuring they can effectively serve the community. As Dana Point Harbor continues to expand as a hub for tourism, recreation, and commerce, the Harbor Patrol needs additional resources to support the increased maritime activity.

Thank you in advance for your consideration.

Sincerely,
Sincerely,
