

# COUNTY OF ORANGE

OUR COMMUNITY. OUR COMMITMENT.

## Community Project Funding Request **Patrol Vehicle Technology Modernization**

Many of the vehicles in the Orange County Sheriff-Coroner's fleet have outdated in-vehicle systems that do not support today's real-time operational needs. The proposed project will replace aging equipment with modern solutions, improving situational awareness, communications, and operational efficiency for deputies on patrol. Investments in enhanced communications equipment and integration of digital tools will strengthen public safety operations, support more timely and accurate field response, and improve risk management through more reliable communications and evidence documentation.

### **Project Status:** SHOVEL-READY

If awarded, CPF funds would support the purchase and installation of enhanced communications equipment and integration of digital tools that support real-time information sharing in the Sheriff-Coroner's Department patrol vehicle fleet.

### **Location**

Santa Ana, CA

### PROJECT OVERVIEW

#### Lead Agency & Program

Department of Justice, COPS Law Enforcement Technology and Equipment

#### Budget

**\$10 M**  
Total Cost

**\$1 M**

CPF Request

#### Key Benefits

- Improve response effectiveness and field decision-making
- Improve system uptime and reliability
- Reductions in technology-related downtime
- Improvements in evidence capture and data quality
